The Reid & Hughes Co.

We Recover Furniture and Do Carpet Laying.

Lodge Notes And Fraternal Interests

Sons of Herman Anniversary—Odd Fellows Elect Officers—United Workmen Gain Court Decision—Hibernians Heard Talk on California Trip.

AMERICAN MECHANICS.

Based on a judgment of the supreme court a decision rendered by Judge William H. Williams last week in the short calendar session of the superior court in the case of the Grand Lodge, A. O. U. W., of this state, against the Grand Lodge, A. O. U. W., of the state of Massachusetts, settled a hard fought legal contest. The decision rendered by Judge Williams awards the plaintiff, the Grand Lodge of Connecticut, \$25,113.42. The state lodge also recovers the costs, which amount to \$15.25.

The granting of the motion for judgment in accordance with the instructions of the supreme court of errors settles one of the most interesting cases involving fraternal orders heard in a state court. The case was over a division of funds connected with the orders. The proportion of the divided funds which each lodge should have, caused the litigation.

ORDER OF PROTECTION.

Circulars announcing the annual state outing of the order are being sent to the Connecticut lodges. It is to be held at Savin Rock on the first Saturday in August.

HIBERNIANS.

Division No. 1 held a social meeting last Sunday evening in Hibernian hall. A large number of members and guests were present. The evening was given to the members by the speakers, Rev. W. A. Keefe and Dr. P. H. Harriman. They told in a delightful manner of their recent trip to California.

Division No. 2 has gone on the summer schedule in holding only one meeting per month which is on the second Tuesday. The meeting on the fourth Tuesday will be omitted till September.

DEGREE OF POCAHONTAS.

The regular meeting of Sebomash council, No. 11, was held on Monday evening in Foresters hall. Ada Lathrop, Pocahontas, presiding over the well attended meeting. After the usual order of business, the following officers were elected: Prophetess, Ada Lathrop; Pocahontas, Grace Thorpe; Wenona, Louisa Manchester. After all the business was done, games were played in which Mary J. Whiting took first prize, Ada Lathrop, second. Delegates were appointed to the state council which is to be held in Middletown in October. First delegate, Marian L. Button; second, Helen Cullen. At the next meeting there will be installation of officers. The meetings are of great interest and well attended.

ROYAL ARCANUM.

The 33rd anniversary of the order was observed on Tuesday evening by Norwich council, No. 230, at its regular meeting at the Buckingham Memorial by a social hour following the business meeting. Vice regent, George H. Adams, presided at the business session which had only routine matters to engage its time.

A game of carpet bowls between teams headed by Frank J. Fields and N. S. Penick resulted in favor of the Fields team, 10 to 7. Ice cream and cake were served by the entertainment committee.

ODD FELLOWS.

Officers for the next six months were elected as follows at the regular meeting of Uncas lodge, No. 11, in Odd Fellows hall on Monday evening, N. G. J. William Spicer, V. G. Louis Orman; secretary, John F. Amburn; treasurer, Frank E. Green; trustee to fill unexpired term, Frank M. Green. Under the retiring grand, Edward S. Hinckley, the lodge has enjoyed a successful term, which is expected to be continued under the new staff of officers. The newly elected officers are:

TWO ACRES BURNED OVER AT MOHEGAN PARK.
Believed Fire Was Started by Boys With Firecrackers—Firemen Called Out.

At Mohegan park on Friday there were about two acres of the grounds burned over, as the result, it is believed, of boys with firecrackers. Superintendent Duff found that he was unable to check the flames, and a call was sent to the fire department, and they spent considerable time there before the fire was put out.

Quite a little damage was done by the fire. The use of firecrackers and inflammable material in the park should be carefully guarded by those having it, and with everything there so dry it would be wise to stop the use of these fireworks. The fire caused damage which it takes years to replace.

CUT TEN CORDS OF WOOD.

Record of Two Days by John McGarry or South Canterbury.

John McGarry, a South Canterbury woodshopper, recently proved his ability with the axe by getting up ten cords of wood, three-quarters hard and the balance chestnut, in two days, working from sunrise to sunset. He had five reputable witnesses who saw him do the stunt, and he believes that there are few woodmen herabouts who can equal his record.

What Fried Liver Is Good For.

A guest at an Atchison home came for three days, and was still there at the end of five weeks. "I like all kinds of meat," she remarked one day as she passed her plate for the third helping, "but fried liver." That night there was fried liver for supper; fried liver the next day for breakfast, dinner and supper; and the next day, when the guest was asked to have fried liver, she packed her trunk and went home.—Atchison Globe.

Destroying Locusts.

The method of exterminating locusts most generally adopted in Panama has been to dig a trench about fifty feet in length, two feet wide and one foot deep, with perpendicular sides, in which the locusts are driven by men beating the grass and trees with switches. In this way millions are collected and are destroyed with a solution of strong lye soap. The trench is then refilled with earth so as to allay the odor.

A Mystery to Father.

"So your daughter has gone to Europe after all?" "Ya-as," drawled Farmer Hayseed; "she's been daffy 't' go ever since she left skule. These here female girl colleges dew put ideas into women's heads. Her maw an' me never could cakelate why she was so set 't' go 't' Yurup. She don't know a soul there."—Lippincott's.

MADE DRUNK BY MOSQUITOES

Small Pests, Not the Wild Animals, Are the Real Troubles of the African Hunter.

"The African mosquitoes intoxicate you. They inject so much poison into you that you are dazed, your eyes roll and you stagger and speak thickly. In a word, you're drunk," said a missionary.

"In the Nyassa country I'd always start getting ready for bed and the mosquitoes an hour before sunset. I'd set up my mosquito net with the utmost care. I'd clamp down its edges with valves and boxes. I'd light inside it three green wood fires, filling it with a bitter smoke that all insects are supposed to loathe.

"Finally I'd get in myself. I'd smoke big pipes of the black native tobacco, and I'd long miserably in that hot, smoky atmosphere for the dawn.

"Despite all my precautions quite 200 or 300 mosquitoes would get inside my net as soon as darkness fell. They were like a whirlwind in there. It couldn't have been worse. Their noise and their nipping made me feverish—made me really delicious at times.

"At last in exhaustion I'd get a few hours of troubled sleep, awakening for breakfast, drunk from the poison injected by hundreds of tiny needles into my veins.

"No, it isn't the elephants or the giraffes that trouble the African hunter, but the 'skeeters!'"

Children Cry FOR FLETCHER'S CASTORIA

Must Be Above Suspicion.

Kidney and bladder ailments are so serious in their consequences, and if unchecked so often fatal that any remedy offered for their cure must be above suspicion. Foley Kidney Pills contain no harmful drugs, and have successfully stood a long and thorough test.—Lee & Osgood Co.

SONS OF HERMANN.

Their 22d anniversary is to be celebrated this year by Germania lodge, No. 11, with a family picnic on July 2d, in the afternoon, at the Taftville Macneerchor grounds, the plans made providing for a programme that will be enjoyed by the members and their families. Invitations were extended also to the Hartford lodge, but it is not known whether they will attend in any numbers.

Germania lodge is to install its officers at its meeting next Thursday evening, the following being the list elected at the last meeting: President, William Reich; vice president, Valentine Reich; secretary, August Hahn; financial secretary, John Grenier; treasurer, John Yeldop.

Immergruen lodge, No. 12, has also elected its members and will install them at its meeting on Wednesday evening. Those who have been serving the past six months were all re-elected.

FORESTERS.

At the regular meeting of Court City of Norwich, No. 63, held Friday evening in Foresters' hall, the business part of the meeting was hurried through, as the weather was hot and nothing of importance was to be transacted. It was announced that installation will take place at the next meeting.

NORWICH HORSES ENTERED FOR POQUONOC RACES.

Three from This City With Their Last Names Alike Should Make a Strong Combination.

There will probably be a good sized attendance at the races at Poquonoc track on Monday, as there are three entries from this city: Fred R., owned by L. L. Chapman; Marty R., owned by Mr. Charon, and Ella R., owned by William F. Bailey, all being in the 2:30 class. This three R. combination should lead the Norwich horses under the wire first.

There will be two events, the 2:30 class and the 3:00 class.

Cooking Versus Piano Playing.

A distinguished man said the other day, at the opening of a new school of domestic science: "Though I speak not from personal experience, but putting myself in the position of a working man who married, I would infinitely sooner be certain of eating a good dinner than of listening to an indifferent pianist. It seems to me there is often more emphasis placed upon piano playing than there is on the more homely, but certainly more useful, offices of domestic life."

Perfectly right, good sir; but you won't convince Conservatory pupils, or the aspirants for "culture" in the outlying districts, that good dinners are of the least consequence compared with their music lessons.—Boston Herald.

Disgusted Veteran Author.

Many years ago a youthful man of letters arrived at Etretat with a letter of introduction of Alphonse Karr. He had been particularly told of Karr's passionate love of the sea; and, finding the author of "Genevieve" seated on the beach, mending a net, he immediately began an enthusiastic outburst of commonplace about the grandeur of the ocean. "Mon sieur," interrupted Karr, "I love the sea; we have lived together a long time. But if you have come all the way from Paris to disgust me with it, I can only say it is a wicked thing to do."

Remedy for Burns.

For burns apply linseed oil and lime water. From experience I have learned to keep a bottle of this remedy in the kitchen with soft, clean pieces of old muslin, right where I can get them without a moment's delay. Apply the oil immediately, and bandage so that not a particle of air can reach the burn, and if it is just a skin burn no blister will form. Even if it is a deep burn this will give immediate and complete relief from pain; but of course a physician should be summoned at once if the burn is severe.—Exchange.

There is no advertising medium in the Bulletin equal to The Bulletin for business results.

A Prejudiced Witness.

A brewer of St. Louis, sailing with his family for Germany, where he owns 25,000 acres, including eight villages and a game forest, remarks at parting: "Prohibition is the meanest thing in the world. Absolute prohibition would ruin the whole world," etc., etc. Well, maybe. But what does he know about it? If ever a man's information was of a negative sort, this man's is.—Lewiston Journal.

Speed, Not Exercise.

Walking, we are told, is a good exercise—better than riding in an automobile. The trouble is that a great many of us are not looking for exercise.—Milwaukee Sentinel.

Not Dodging Lynch Law.

We invite the attention of easterners who think that Ohio is somewhere in the backwoods to the fact that a wild deer has been caught on the streets of Springfield, Mass.—Cleveland Leader.
